Customizing 404 Page Created April 22, 2020 Author Rohit Category BeAgency	Archive	es
The 404 page serves as a quickly recognizable message that displays when your server is unable to find a page your visitor is requesting. It is most commonly displayed as the result of a broken or dead link. BeAgency includes a simple 404 error page. This article will show you how to edit the custom text on the 404 page.	Catego No categ	o ries ;ories
 Go to a 404 page on your site, e.g., http://yoursite.com/404/. Launch the WordPress Customizer from Admin Bar. BeAgency Customize P 0 + New Delete Cache 	Meta Log in	
 Click 404 Page. Customize the text in real time. <u>surved</u> <u>404 Page</u> Here you can customize your 404 Page. 	Entries fe Commer	eed nts feed
404 Error Message Oops! The page you were looking for Could not be found. Oops! The page you were looking for could not be found.	WordPre	ss.org

Note

The **404 Page** option will be displayed only when previewing a **404 Error Page** in Word-

Press Customizer.
